

SafeXpress - Workshop on bank security

Godrej | SECURITY SOLUTIONS

What is common to all these movies?

..... A bank was broken into

But the threat to banks are not
just restricted to movies

Robberies
have become
a regular
occurrence in
our banks

Kanpur bank loot case: Police arrest 11 out of 13

5 kinds of threats affecting the branches today!

Need of the hour is safety
and security

RBI has been formulating a variety of guidelines to protect our banks

- “ CC is advised to replace the old bins with fire-proof bins at the earliest and report the same to RBI
-RBI guidelines on Fire resistant bins
- “ Top priority should be accorded for upgradation/replacement of Security Equipment in identified vulnerable branches to prevent occurrence of untoward incidents
-RBI guidelines on upgradation of safety equipment
- “ All the modern security equipment like night latches to cashier’s cabin, grill gates to strong rooms, alarm system etc. should be provided for branches
-RBI guidelines on safety equipment

Let us do a couple of case studies
to explore this

Case Study 1: Convenience leading to consequences

A public sector bank
in South Mumbai

Sunil was the cash
officer of the bank

Ramesh was the
branch manager

1 hr

Both of them travel from north Mumbai to the branch by taking the local train

Over a period of time, the custodians were leaving their set of keys in the branch itself in their respective drawers, not known to each other and also both the set of locks were not locked every day

Both took vacations during Diwali last year and when they came back, all the valuables in the bank were stolen

What happened?

Case Study 1: Analysis

The Peon who had noticed the keys being stored in drawers, managed to make duplicate keys and during the vacations came to the bank, opened the main door, SRD, Safe and took a big sum of money and escaped

What were the mistakes committed during this incident?

Operational guidelines were not followed

Officers did not take the keys away with them
 The operation of the keys should not be shared with people apart from the custodians
 Multi locking mechanism was not used

Dual locking system should have been followed

Locks	CLOSING		OPENING	
	First Operation	Second Operation	First Operation	Second Operation
Upper Lock A	Key -A1 Turn 	Key - 2 Turn 	Key - 2 Turn 	Key - A1 Turn 
Lower Lock B	Key -B1 Turn 	Key - 2 Turn 	Key - 2 Turn 	Key - B1 Turn 

Case Study 2: Police save the day

Branch located in rural part of the country with limited activity.

Every day the manager & cashier close the branch by evening

3 burglars carrying guns appear. They threaten the manager to open the safe

At gunpoint the manager types in the code and opens the safe. The burglars begin loading the cash in their bags after tying up the manager & the cashier

But to their surprise, policemen appear on the spot within 15 minutes and the thieves are caught

What happened?

The manager was aware of all the safety features of the safe and entered the distress code in the safe (available in Godrej Neutronics safe). This alerted the local police of the theft even while opening the safe. Hence saving the day

It is key to know all the
safety equipment

Safes and cabinets for protection of valuables

Product	Features	Use Case	Lock Type	Typical mistakes
 <p>Cash/Gold Safes</p>	<ul style="list-style-type: none"> • I-Alert: In the event of a burglary attempt, the safe is equipped to trigger a local alarm and send alert to registered mobile numbers • Biometric/Electronic Lock Integration • Duress: Silent Alarm to registered users • Key Detent mechanism for resistance towards burglary 	<ul style="list-style-type: none"> • Gold and Jewelry Storage • Confidential Documents • High Value Currency Storage 	<ul style="list-style-type: none"> • Dual control high precision 8-lever key lock • 26 to 41 model- 1 key lock, 49 to above model- 2 key locks 	<ul style="list-style-type: none"> • Compliance to Joint custodian key storage. • Door closure with handle movement without locking
 <p>Small safes</p>	<ul style="list-style-type: none"> • Fully welded, multi-bend metal body • Also available with coin slot and Anti-fishing Mechanism • Dual Control 6 Lever lock with optional combination lock 	<ul style="list-style-type: none"> • Temporary Cash Storage for day time operations 	<ul style="list-style-type: none"> • Dual-control 6 lever key lock 	<ul style="list-style-type: none"> • Door closure with handle movement without locking • Separate Key Records
 <p>D-Tel</p>	<ul style="list-style-type: none"> • Fully welded, multi-bend metal body • Two Drawers with Snap-Shut Mechanism: Drawers can be shut with a simple push, a feature enabled by a high precision lock. • Anti-fishing Mechanism 	<ul style="list-style-type: none"> • Cash Counters/Over the counter transactions 	<ul style="list-style-type: none"> • 6 lever key lock for storage unit and snap shut locks for the two drawers. 	<ul style="list-style-type: none"> • Secure Locking of cubicle during operation. • Closure of drawers without locking

Strong rooms form the backbone of bank branches

Product	Features	Use Case	Lock Type	Typical mistakes
 <p>Strong room door</p>	<ul style="list-style-type: none"> Torch and Drill Resistant Layer (TDR Matrix) and Double Duty Barrier (DDB Matrix) Automatic Deadlocking Device (3Nos.) Available in Class C (TRTL 15) Class B (TRTL 30) 	<ul style="list-style-type: none"> Cash Stores Gold/Jewelry Stores Record Stores 	<ul style="list-style-type: none"> Dual control high precision 8-lever Key lock 	<ul style="list-style-type: none"> Door closure without locking Following wrong sequence of Key operation
 <p>High security door</p>	<ul style="list-style-type: none"> Torch and Drill Resistant Layer (TDR Matrix) and Double Duty Barrier (DDB Matrix) Automatic Deadlocking Device (3Nos.) Available in Class A (TRTL 60), Class AA (TRTL 120) & Class AAA (TRTL 180) 	<ul style="list-style-type: none"> High Value Cash Storage High Value Gold/Jewelry Storage Record Stores 	<ul style="list-style-type: none"> Dual control high precision 8-lever Key lock 	<ul style="list-style-type: none"> Door closure without locking Following wrong sequence of Key operation No Rotation of Duplicate keys
 <p>Steel fabricated strong room</p>	<ul style="list-style-type: none"> Knockdown design makes Assembling and Dismantling as per need Fitted with Godrej Defender Plus Class 'C' Door Lined with Fire Bricks from outside making it fire-resistant for up to 120 mins 	<ul style="list-style-type: none"> Low Value Cash Rooms Low Value Gold/Jewelry Storage Record Rooms 	<ul style="list-style-type: none"> Dual control high precision 8-lever Key lock 	<ul style="list-style-type: none"> Door closure without locking
 <p>Fortifi</p>	<ul style="list-style-type: none"> Knockdown design for upgrading and fortifying a old and obsolete strong room door at the premises making it Torch and Tool resistant Installation at the bank branch within 3 days during operating hours too. 	<ul style="list-style-type: none"> Bank Strong Rooms Vault Rooms 	<ul style="list-style-type: none"> Dual control high precision 8-lever Key lock 	<ul style="list-style-type: none"> Door closure without locking Following wrong sequence of Key operation No Rotation of Duplicate keys

Cabinets provide safety for key document from fire

Product	Features	Use Case	Lock Type	Typical mistakes
 <p>Fire resistant filing cabinet</p>	<ul style="list-style-type: none"> • Tongue and Groove Construction for better fire resistance • Snap-Shut Mechanism to minimize time taken to lock during crisis • Also available with Pin Cylindrical lock with Ultra Key 	<ul style="list-style-type: none"> • Critical Documents • Loan Documents 	<ul style="list-style-type: none"> • Dual-control 6 lever key lock 	<ul style="list-style-type: none"> • Operation of interlocking latch • No Separate Key Register
 <p>Fire resistant filing cabinet</p>	<ul style="list-style-type: none"> • Tongue and Groove Construction for better fire resistance • In-fill material structure shields cabinet from falling debris • Available with Lever Key Lock/Dual Control Gordian Lock/3-Wheel Combination Lock, Electronic Number Lock, Biometric Lock 	<ul style="list-style-type: none"> • Paper Files & Bulky Ledgers • Critical Documents. 	<ul style="list-style-type: none"> • Dual-control 6 lever key lock 	<ul style="list-style-type: none"> • Closure of door without locking • No Separate Key Register
 <p>Kompactron</p>	<ul style="list-style-type: none"> • BIS Certified for Fire Protection and Endurance for at least 1Hr • Ultra Compact Design ensured it occupies 30% less space so your office gets that 30% more space • Swift Drive Platform provides easy-to-operate, easy-to-maneuver flexibility making offices efficient, versatile and adaptive 	<ul style="list-style-type: none"> • Optimized space utilization • Paper Files and Bulky Ledgers 	<ul style="list-style-type: none"> • Dual-control 6 lever key lock 	<ul style="list-style-type: none"> • Closure of door without locking

Digital information needs protection from fire & moisture

Product	Features	Use Case	Lock Type	Typical mistakes
 <p>Dataline safes</p>	<ul style="list-style-type: none"> • Specially formulated Fire Resistant Material for media protection • Advanced three layer construction which protects the contents from moisture, magnetic field and provides thermal insulation. • Available in 3 sizes - 10 L, 53 L, 90 L 	<ul style="list-style-type: none"> • Sensitive Computer Media like CDs, Hard Disk etc. 	<ul style="list-style-type: none"> • 10 Lever High Security Cylindrical Locks for added security 	<ul style="list-style-type: none"> • Closure of door without locking
 <p>Dataline cabinets</p>	<ul style="list-style-type: none"> • 372 Liters of economically used space • Cabinet-within-a-cabinet type of construction • Protection from fire, dust, heat, moisture, magnetic waves and static electricity 	<ul style="list-style-type: none"> • Sensitive Computer Media like CDs, Hard Disk etc. • Paper Files & Bulky Ledgers 	<ul style="list-style-type: none"> • 10 Lever High Security Cylindrical Locks for added security 	<ul style="list-style-type: none"> • Closure of door without locking

Conclusion: Little effort goes a long way in safety

Need of the hour - invest & secure the future

Perform audit to
evaluate the current
security status

Upgrade Security to
secure Valuables and
Records

Integrate with
Electronic Security

5D approach needed to remain secure in the current environment

Deter

Intelligence to deter—A psychological battle, wherein the criminal activity never starts

Detect

Intelligence to detect possible unauthorized intrusion in time to respond appropriately

Delay

Intelligence to slow down an active intrusion enough to force the intruder to give up, or allow the security team to respond

Deny

Intelligence to keep unauthorized persons out, while allowing authorized persons to enter

Defend

Intelligent Defence mechanism to apprehend the intruder

Who are we?

Godrej is amongst the most trusted brands in the country

Best quality products from world class manufacturing

We understand financial sector and have been securing it for the past 120 years

Innovation has been the core driver for us

Unparalleled reach for both deliveries and service

OUR ENDEAVOUR: TO GIVE YOU NOTHING BUT THE BEST...

Services offering that help secure
the banks better

Godrej as a trusted banking partner can aid in multiple avenues

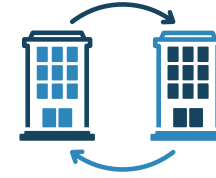

Locker services

-  Break open of lockers (key lost or rent over dues)
-  Upgradation of existing lockers to ultra lockers
-  Re-keying of surrendered lockers

Upgradation services

-  Embedding of Safes
-  Installation of limit switches
-  Bolt detent mechanism and non retractable Key lock installation
-  Upgradation of strong room doors with retro fitting

Shifting of branches

-  Shifting of all security equipment
-  Dismantling, shifting and reinstallation of SRD
-  '3 Month' warranty for shifted equipment

Locker services

Service	Use case	Benefits	Usage
 <p>Break open of lockers</p>	<ol style="list-style-type: none"> 1. Loss of Key 2. Overdue rent of Lockers 	<ol style="list-style-type: none"> 1. Secure and Safe issuance of new sealed key to bank Customers for hassle free operations. 2. Creating additional revenue source by reallocating the rent over due lockers to new Customers. 3. Peace of Mind of Customers by providing genuine spares. 	Over 5000 breakopens last year in all the banks
 <p>Existing lockers to Ultra Lockers</p>	<ol style="list-style-type: none"> 1. More Secure key 2. New Technology compared to 7Lever Key 	<ol style="list-style-type: none"> 1. Upgradation to multi row cylinder technology with over 5 million combinations 2. This new technology gives a secure feeling to the customer compared to old locker key. 	Have upgraded private vault lockers to ultra locks
 <p>Re-keying of lockers</p>	<ol style="list-style-type: none"> 1. Surrender of Lockers 2. Re-allotment of old lockers 	<ol style="list-style-type: none"> 1. Availing new Customer key in sealed condition 2. Elimination of Vulnerability of old Customer key in use. 	Over 4000 rekeying done last year in all the banks

Upgradation services

Service	Use case	Benefits	Usage
 <p data-bbox="135 568 461 604">Embedding of Safes</p>	<ol data-bbox="647 361 970 439" style="list-style-type: none"> 1. Attacks on safes from Sides 	<ol data-bbox="996 361 1671 615" style="list-style-type: none"> 1. Fortification of Safe from all 5 sides as per Bank's Security norms. 2. Eliminating the possibility of uplifting light weight safes 3. Leveraging GSS expertise in quality execution of work 	<p data-bbox="1750 361 2397 446">100+ safes embedded in key branches across india</p>
 <p data-bbox="135 843 626 879">Installation of Limit Switches</p>	<ol data-bbox="647 636 945 715" style="list-style-type: none"> 1. Cut off Power supply 	<ol data-bbox="996 636 1709 891" style="list-style-type: none"> 1. Automatic cutting off the power supply when the vault door is closed. 2. Eliminates the manual intervention of turning off the power supply. 3. Peace of Mind of Customers by providing genuine spares. 	<p data-bbox="1750 636 2308 722">~2000 limit switches installed in multiple branches</p>
 <p data-bbox="135 1051 570 1122">Non Retractable Key Lock installation</p>	<ol data-bbox="647 915 970 993" style="list-style-type: none"> 1. 100% closure of door 	<ol data-bbox="996 915 1735 1079" style="list-style-type: none"> 1. Eliminates the possibility of keeping the door unlocked 2. Non retraction of key in unlocked condition ensures 100 % closure of the door. 	
 <p data-bbox="135 1293 606 1372">Fortification of strong room doors with retro fitting</p>	<ol data-bbox="647 1158 919 1279" style="list-style-type: none"> 1. Enhancing strength of non TRTL doors 	<ol data-bbox="996 1158 1735 1279" style="list-style-type: none"> 1. Enhances the strength of non TRTL doors to TRTL 30 2. Work can be executed in running branch. 	<p data-bbox="1750 1158 2397 1243">150+ strong room doors in high threat areas retrofitted within the last year</p>

Upgradation services

Service	Use case	Benefits	Usage
 <p>Time Locks & Electronic/ Biometric Locks</p>	<ol style="list-style-type: none"> 1. Additional security to Safes & SRD as per RBI 	<ol style="list-style-type: none"> 1. UL certified locks 2. Ensures Safes & SRD opens only when the set time is completed. 3. Ensures the authorized user is present during open and closure of safe & SRD 	<p>200+ biometric locks fit mostly in PSU banks</p>
 <p>Retrofitting of Neutronics</p>	<ol style="list-style-type: none"> 1. Enhanced Security to Safes & SRD 	<ol style="list-style-type: none"> 1. Ensures an alarm is sent to the user when the product is attacked. 2. Users are notified with calls and SMS with the inbuilt GSM unit in the panel 	
 <p>AMCs & PMCs</p>	<ol style="list-style-type: none"> 1. Smooth & hassle free operations of Products 	<ol style="list-style-type: none"> 1. Eliminates the chances of breakdown and ensures smooth & hassle free operations of the products. 2. GSS trained technical team ensures that products are serviced and overhauled thoroughly for seamless operations. 	<p>AMC of multiple RBI branches has been executed for SRDs and Safes</p>

Branch shifting services

Service	Use case	Benefits	Usage

OUR ENDEAVOUR: TO GIVE YOU NOTHING BUT THE BEST...

Security is always under constant
scrutiny

RBI has been formulating a variety of guidelines to protect our banks

- “ Currency Chest is advised to replace the old bins with fire-proof bins at the earliest and report the same to RBI
-RBI guidelines on Fire resistant bins
- “ Top priority should be accorded for upgradation/replacement of Security Equipment in identified vulnerable branches to prevent occurrence of untoward incidents
-RBI guidelines on upgradation of safety equipment
- “ All the modern security equipment like night latches to cashier’s cabin, grill gates to strong rooms, alarm system etc. should be provided for branches
-RBI guidelines on safety equipment

IBA is also constantly coming up with guidelines to enhance security

- “ For enhanced security, the locking mechanism in Locker cabinets banks may consider upgrading the locks from elementary level based to more secure lock types e.g. Biometric Lock, Electronic Lock or Mechanical multi row pin cylinder based locks

-IBA guidelines on Locks

- “ Once a locker is surrendered by the existing renter, the bank should not interchange the locks as duplicate keys could be available with existing renter. Hence it is recommended that set of keys and levers of all surrendered lockers should be replaced with new unused set. This will ensure safety of lockers issued to new enter.

-IBA guidelines on locker surrender
