**THE WIDEST RANGE
OF WORLD-CLASS
SAFETY SOLUTIONS.**

THINK SAFETY, THINK GODREJ.

ABOUT US ●

Godrej Locks is part of the Godrej Group, one of India's leading organisations, with the patronage of 500 million users, for the last 125 years. This multi-location and multi-business corporate house has etched out a global footprint and is the choice of customers, worldwide.

Godrej was the vision of a man with big dreams - Ardeshir Godrej - who started a small company manufacturing locks in 1897. Today, this company has grown to become a household name across India, touching lives in every corner of the country. It has expanded to become 4.1 billion USD conglomerate with Well- established brands in diverse industries. All thanks to the company's consistent vision of satisfying end users' needs of security, safety and convenience in India.

From locks, household appliances, furniture and food to real estate, hi-tech engineering, security and personal care, Godrej's relentless pursuit of excellence has enriched lives across the globe. So much so, that in the year 2014, Godrej Locks was awarded the CII-EXIM Bank Business Excellence Award, based on the European Foundation for Quality Management (EFQM) Model for Business Excellence.

Staying true to its core values of fairness, transparency and ethical dealing, the group has built a strong network of over 50 company-owned retail stores, more than 2,200 wholesale dealers and over 18,000 retail outlets. Moreover, Godrej Locks is a role model organization in India as a responsible corporate citizen.

Godrej Locks follows the same tradition of excellence, and is well-known for its constant innovation blended with cutting edge technology. We offer a comprehensive range of choices in design and strengths of security, to anticipate every need for safety faced by contemporary homes and businesses.

OUR CAPABILITIES

■ Manufacturing

We have over 2, 00,000 square feet of manufacturing space in 4 locations across India. Our pillars to achieve excellence in manufacturing encompass :

- Working with major manufacturing technologies
- State of the art equipments and machineries
- Intensive product testing
- Certified quality practices

■ Design

We have a team of industrial designers and engineers who are dedicated to creating and developing latest designs. We house a Centre of Industrial Design where designers are constantly working on innovative products to cater to the needs of our customers. Our products have consistently won The India Design Mark (the highest reward for product design excellence in India) from the year 2013 each year.

■ Customized solutions

We provide customized solutions best suited for our consumers' needs which include integrating Master Key – Common Key , Customized Cover Plates, Levers, Rosette Handles, Rim Locks, Mortise Locks, Furniture and Safe locks. We have successfully catered to industry verticals like Real Estate, Petroleum, Logistics, Telecom, Hospitality, Airports, Banks, Education, Power and Postal Services in India and overseas market. Our Research & Engineering team works seamlessly with the Design team to provide technically integrated and advanced products for the clients.

■ Quality Systems and Certifications

- Awarded the CII-EXIM Bank Business Excellence Award-2014, based on the European Foundation for Quality Management (EFQM) Model for Business Excellence.
- Integrated Management System for Quality, Environment and Health safety from TUV. (ISO 9001: 2015, ISO 14001: 2015 and ISO 45001:2018 certified)
- Products are tested to EN, UL & CE standards for conformity.
- GreenCo Gold Certified

Common Key System

It is a set of identical locks operable by the same key.

Examples:

Toilets, Ducts, Service rooms

Master Key System

What is Master Key System?

A Master Key is a key which can operate all the distinct locks in a predefined set. Each of these locks are also operable with their individual (change) keys.

What are the benefits?

- Robust security without the confusion of multiple keys
- Easy to define and map access of personnel. Thus, security system within the work group can be simplified and organised.
- All types of locking points which employ different systems (mortise cylinders, cylindrical locks, padlocks on the same technology platform) for various requirements (main entrance, internal doors, shutters) can be locked with just one key.

Master Key Arrangement

- The system consists of locks which are fitted on various application areas (D1, D2 ...)
- Each key is operated by an individually assigned key (K1, K2 ...) previously referred to as change key.
- The Master Key supersedes all these change keys and can be used to open all these locks in the system.

Examples:

Floor wise Master Key System

Grand Master Key Arrangement

- It is a group of small Master Key systems operable by one Grand Master Key. The Grand Master Key operates all the locks in the entire system. Each lock is operated individually by a separate key.

Examples:

Floor wise Master Key & Grand Master Key for the entire building (even across buildings)

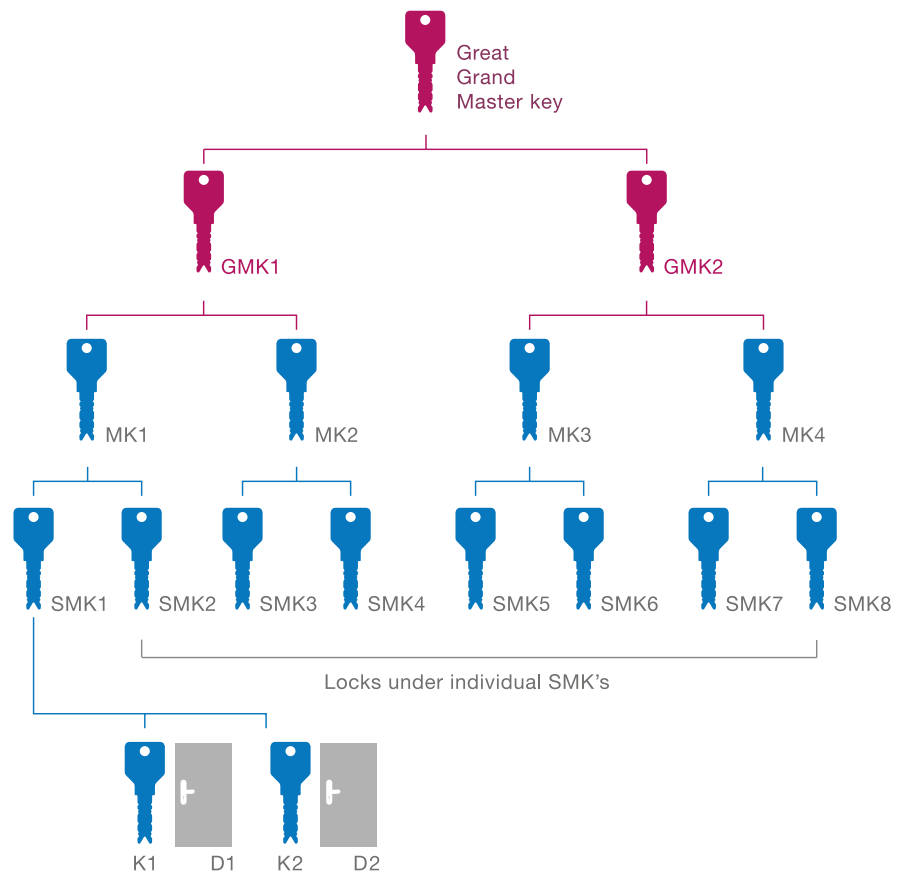

Great Grand Master Key Arrangement

- Great Grand Master Key is a group of some Grand Master Key systems operable by one Great Grand Master Key. This key operates all the locks in the entire system.

Examples:

Floor wise Master Key & Grand Master Key for the building & GGMK for the entire project.

Standards & Approvals

We have the certificates for the following standards & accreditations:

- TUV
- Products are tested to certificate of conformity:

1] DIN EN 12209 : 2004-03
Europrofile Mortise Lock 240mm
(Backset 50/55/60/65/70 mm)

Classification:

3	H	7	0	0	E	6	P	C	1	0
---	---	---	---	---	---	---	---	---	---	---

2] DIN EN 12320: 2001-05
3KS dfENdr Padlock

Classification:

X	X	X	X	X	2	4
---	---	---	---	---	---	---

3] EN 1154 : 1996 + A1: 2002
Door Closer C680

Classification:

3	8	4	1	1	4
		2			

4] UL 228: Heavy Duty Door Closer

- Commendation Certificate for Significant Achievement on the journey towards Business Excellence awarded by CII Exim Bank Business Excellence Award jury

ANSI

Handing of doors

Hinged doors can open in one of four ways and this determines whether the door is left or right -handed. Double doors with plain meeting stiles are also handed in this manner. Likewise, double rebated doors can open in one of four ways and this will determine whether the door is left or right -handed.

Single Doors

GODREJ LOCKS 5 STRENGTHS OF SAFETY

To help you strengthen your home's safety, Godrej Locks gives you locking solutions with different safety strengths. Pick the locking solution that has a safety strength suitable to your home safety needs.

Safety Strengths

Godrej provides a total locking solution, offering locks at various safety strengths to ensure optimum safety.

- Safety Strengths Level 1 - Basic Safety
- Safety Strengths Level 2 - Ultra Safe Technology
- Safety Strengths Level 3 - Extra Safe Technology (EXS)
- Safety Strengths Level 4 - EVVA 3 Kurve System Technology (3KS)
- Safety Strengths Level 5 - Advanced Digital Access Control Technology

Godrej Safety Strength 1 locks come with the conventional mechanical locking system through basic security systems which have levers, wafers, tumblers and single-row pin-cylinder technologies.

Godrej Safety Strength 2 locks have highly precise computerised dimple keys with Advanced multi-row pin-cylinder technology. Here, the maximum number of combinations (key differs) that can be provided is up to 100 million, which makes each key unique and non-interchangeable with any other key.

Godrej Safety Strength 3 locks come with Advanced, Angular multi-row pin-cylinder technology. The maximum number of combinations (key differs) that can be provided is up to 2 billion and a highly complex system of master key solutions is possible.

The highest safety strength, Godrej EVVA, in mechanical locks, comes with a revolutionary EVVA 3 Kurve system technology (3KS) with a floating pin, sidebars and locking bar. This conforms to European standard EN 1303. The 30 trillion combination cycle means that a single key will not be repeated for the next 30 trillion keys. Since there are not 30 trillion humans on the planet, it's virtually impossible for someone else to have an identical key as yours.

Unlike conventional mechanical locks, the Godrej Digital Locks are based on virtual networks, which have four different access control systems and have unlimited combinations to ensure enhanced safety.
