Bed Fittings

In the modern apartment, people try to utilise every inch of space. Which is why, it's now common to use box beds to store mattresses, blankets, pillows and other items. However, it is very inconvenient to lift the heavy bed top to access the stored items. What's more, the heavy weight of the board and mattress can be a safety hazard.

Godrej presents the perfect solution. Introducing **Neulift**, the innovative bed fittings system that makes bed storage access easy and safe. Offering optimum storage, the Neulift system is extremely easy to operate, even when used multiple times in a day. Simply give it a gentle pull-up. The smooth-action pneumatic spring does the rest, lifting the bed top effortlessly. Easy to install, Neulift is also very comfortable to sleep on, with its ergonomic, flexible wooden slats design.

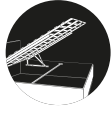

# Features and Benefits

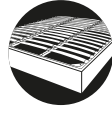

Easy to assemble.

Best in class Electrostatic Spray Deposition (ESD) provides a uniform finish, lasting surface and also is environment friendly.

Mild steel frame and birch wood slats make bed lighter.

Ergonomic frame design with flexible wooden slats provides sleeping comfort and holds the mattress in place.
