APPLIANCES  
THINGS MADE THOUGHTFULLY

# New Looking Clothes Everyday!

## THOUGHTFULLY DESIGNED GODREJ WASHING MACHINE

Godrej Washing Machines offer a comprehensive range of options to meet diverse laundry needs. Whether you prefer our range of Front Load, Top Load, or Semi-Automatic, we have you covered. Our machines provide superior cleaning performance, convenience, and affordability. Simplify your laundry routine with Godrej Washing Machines and experience reliable and innovative laundry care.

*Godrej*

## CARES FOR YOUR FABRICS

Be it woolen, denim, cotton, sportswear, baby care or whites, our washing machine takes care of all your laundry needs, giving each fabric the care it deserves.

The image shows the control panel of a Godrej washing machine. On the left is a detergent drawer with the Godrej logo. In the center is a large rotary dial with various wash programs: Night Wash, Sportswear, Baby Care, Hand TV, Power, Silk, Stop, Allergy Protect, Whites, Cotton 6, Cold Wash, Synthetic, Wool, Delicates, and Rinse. On the right is a digital display and touch-sensitive buttons for Temp. Selection, Spin Speed, Skin Level, Extra Rinse, Start Delay, and Start Pause.

The diagram below the control panel features a circular collage of fabric textures with labels: Cotton (white), Denim (blue), Woolen (grey), Synthetic (teal), and Delicate (pink). A dark grey circle at the bottom contains the text **FABRIC FRIENDLY**.

## STAIN LEVEL SELECTOR

Different stains require different level of scrubbing. With our Stain Level Selector, choose the stain intensity and leave the rest to our washing machine. This keeps clothes looking spotlessly clean, just like new.

### STAIN INTENSITY

Low

Harsh

Stubborn

## ALLERGY PROTECT TECHNOLOGY

Wash away your worries with Allergy Protect Technology that removes common allergens like house dust mites, Pollen, Mould, Fungi, etc and different kind of bacteria like Escherichia coli, Enterococcus faecilis, etc from your clothes to ensure a truly hygienic wash. Especially recommended for sensitive skin.

*Godrej*

## SUPER DRY WITH 1440 RPM

Heavy clothes like denims are a challenge when it comes to drying, especially during monsoons. High spin RPM (Revolutions per minute) in our washing machines help remove more moisture from the clothes, thus enabling faster and better drying post wash.

*Godrej*

## GERM SHIELD™ TECHNOLOGY\*#

(Patent Applied)

Disinfects 99.99%+ Germs\* & Virus\* like SARS-CoV-2, 12 types of allergens like Mite, S.tropomyosin, etc & 5 types of bacteria like E.coli, Salmonella enterica, Staphylococcus aureus etc, resulting in a hygienic wash. Now, wash away both - visible stains and invisible germs.

**Hygienic 60°C  
Hot Wash**

## STEAM WASH

Remove bacteria, allergens, dirt, grime and multiple stains up to 48 hours old with steam wash technology. The steam cycle is a safe and gentle method to reduce wrinkles and stains without the risk of shrinking.

 Coffee	 Wine	 Butter	 Ink	 Coconut water	 Holi Colours		
 Turmeric	 Glue	 Milk	 Lemon	 Ash	 Chocolate		
 Acrylic Paints	 Tea	<p>REMOVE <b>80+</b> - STAINS - UP TO 2 DAYS OLD*</p>		 Perfume	 Fruit Juice		
 Strawberry	 Curd			 Makeup	 Cola		
 Chutney	 Soya Sauce			 Chalk	 Water Colour	 Ginger Garlic Paste	 Ketchup
 Honey	 Tobacco			 Cooking Oil	 Pickle	 Mud	 Toothpaste

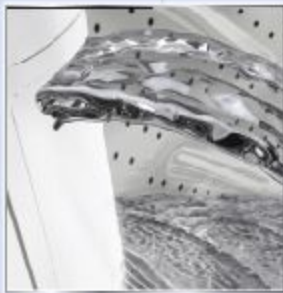

## ROLLER COASTER WASH

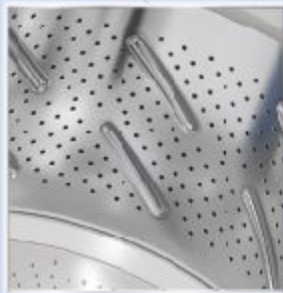

Our smartly designed Gravity drum, Aquajet pulsator & Cascade waterfall gives you the fortified roller coaster wash. Gravity drum ensures an all-round movement of the fabric. Aquajet Pulsator's large surface area and 2.5 inches of depth, creates strong turbulence and better scrubbing action. Cascade Waterfall forces the dirt out.

**2.5" DEEP AQUAJET  
PULSATOR**

**CASCADE  
WATERFALL**

**GRAVITY  
DRUM**

*Godrej*

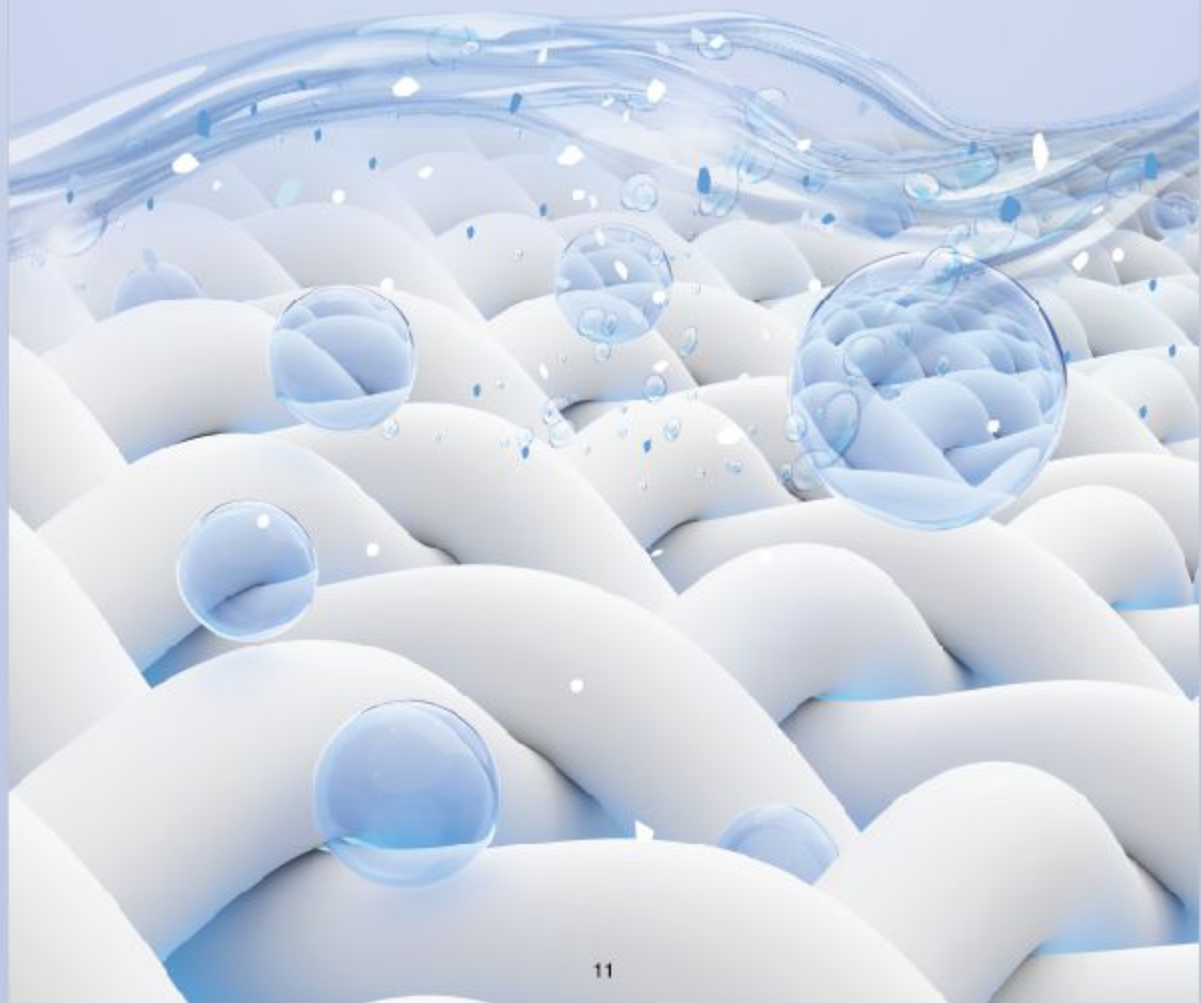

## IN-BUILT SOAK TECHNOLOGY

Ditch the bucket! Pre soak your clothes in the machine itself before the start of the wash cycle. Further, pulsator action during the soak mimics hand scrub action, loosening any stains.

## DETERGENT REMOVAL

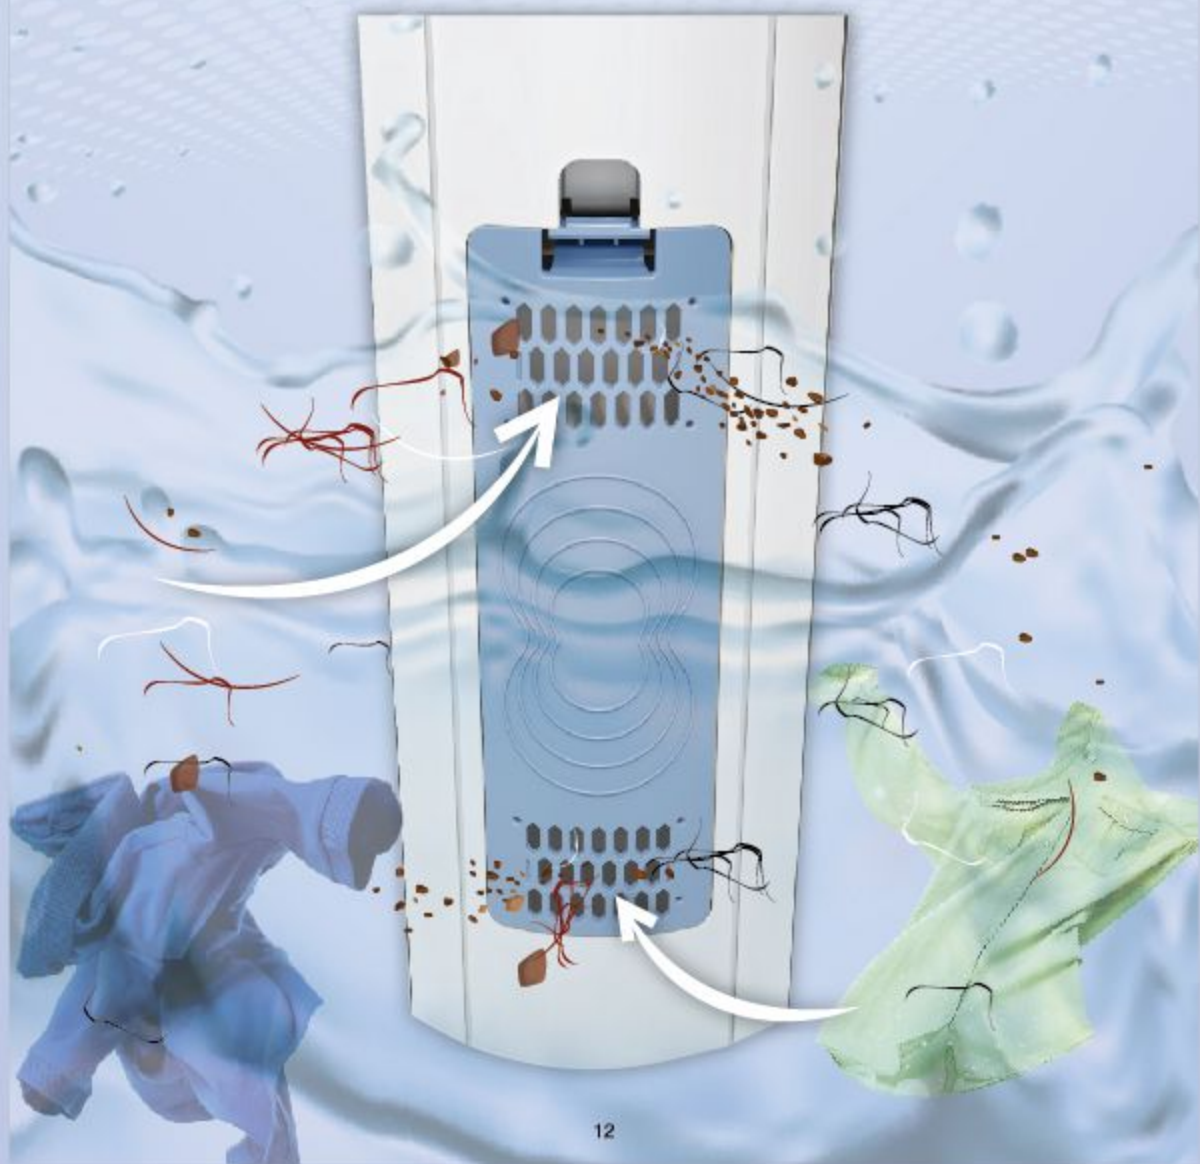

Excessive detergent can create white patches on clothes and make them appear dull. It can also irritate the skin. With features like hygiene rinse and spin shower, users can choose an extra rinse cycle and add water during the spin cycle to wash away any remaining detergent residue, retaining newness in the clothes.

*Godrej*

## SMARTLY DESIGNED LINT FILTRATION

Lint, fluff & fine dirt particles can settle on clothes during wash. This causes garments to look faded & worn out. Well designed lint collection system in the Godrej washing machines ensures effective lint filtration during the wash, even for smaller wash loads which is very often missed in regular machines. This superior lint removal goes a long in keeping your clothes new looking everyday.

## ADVANCED TUB CLEAN

(Patent Applied)

Repeated washes leads to deposition of residue inside the washing machine which affects wash quality subsequently. Advanced tub clean program involves thorough cleaning of the drum, lint filter, pulsator and balancer ring with water at high temperature, to remove any residue. This helps enhance wash quality for clothes.

What's more, the program does not need any additives and investments for the users.\*

**Drum**

**Lint Filter**

**Balancer Ring**

**Pulsator**

*Godrej*

## Solution To All Your Washing Problems!

In a rush?

Turn on the  
Quick Wash Mode &  
get your clothes washed  
in as little as 15 minutes.\*

*Godrej*

## Solution To All Your Washing Problems!

No time for laundry in your busy schedule?

The Night wash program allows you to do your laundry and sleep soundly, as the machine won't spin until after 10 hours.

*Godrej*

## Solution To All Your Washing Problems!

Ironing is difficult because of too many wrinkles?

**Anti-Crease  
Technology minimizes  
wrinkles, making  
ironing easier.**

## Solution To All Your Washing Problems!

Unsure about the appropriate amount of detergent to wash your clothes effectively?

Detergent indicator suggests the right amount of detergent based on water level.

*Godrej*

## FULLY AUTOMATIC Eon Front Load Washing Machines

Loaded with smart features and thoughtful technology, the advanced front loading washing machines from Godrej keep your wardrobe fresh and new looking everyday.

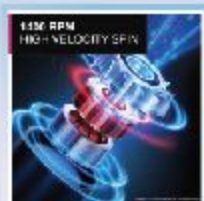

## ADVANTAGE

# Eon Front Load Washing Machines

This intelligent system easily detects and redistributes the load to ensure balance, reducing excess vibration and protecting the machine. It also automatically selects the ideal water level, intelligently – delivering optimal wash quality. Whats more, its intelligent self diagnosis facilitates easy error detection and maintenance.

The 1400 RPM Spin Motor facilitates faster and better drying, even for heavy fabrics like denim, etc.

Conforms to A++ European standards of energy efficiency.

Eco-Balance Technology automatically optimizes energy and water consumption according to the laundry load.

This machine boasts unparalleled durability, showcasing remarkable resistance against unsightly scratches, heat, and jarring impacts.

## FULLY AUTOMATIC Eon Top Load Washing Machines

With specially crafted wash technologies, superior drum and pulsator design, advanced ~Zero pressure technology, germ shield technology for stain and germ removal, steam wash, smart features like super dry, water resistant control, smartly designed lint collector system and a lot more, the Godrej Eon Top Load Washing Machines are truly thoughtful.

## ADVANTAGE

# Eon Top Load Washing Machines

Specially Crafted for monsoons, for heavy bulky clothes, 'super dry' mode delivers extra drying with an extra spin cycle for greater moisture removal, reducing the post wash drying time.

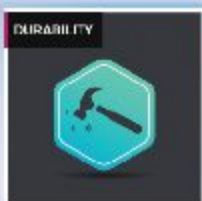

The machine can intelligently decide and set the wash parameters based on the wash load, without any intervention. The advanced system can also detect and fix any load distribution issues, ensuring a smooth, low vibration operation. It can also remember and resume its program in case of a power outage.

The unique ~zero pressure technology fills the tub even at ~0 water pressure. Not just this, it fills the tub 60% faster than the regular machine during low water pressure condition.\*\*

Amalgamation of Gravity drum, aquajet pulsator & cascade waterfall gives you the fortified rollercoaster wash. Gravity drum ensures all-round movement of the fabric. Aquajet Pulsator's large surface area creates strong turbulence and better scrubbing action and Cascade Waterfall cleanses the dirt-out, with water housing in from both sides.

With a rust proof steel drum and a robust & elegant toughened glass lid, the machines show remarkable resistance to scratches, heat and impact making them long lasting companions.

\*\*Results based on internal lab tests done on select Godrej models at low water pressure of 0.02 MPa under specific test conditions and may vary depending on testing conditions.

## **SEMI AUTOMATIC** Washing Machines

With thoughtful features like hot wash, in built soak, digital controls, heavy duty wash, toughened glass lids , elegant designs and robust body, our range of semi automatic washing machines are crafted to deliver joy to your clothes, for years.

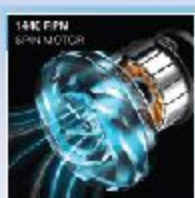

## ADVANTAGE

### Semi Automatic Washing Machines

The 650W PowerMaxx Wash Motor motor ensures a thorough wash and makes it easy to wash heavier laundry like blankets and curtains as well.

The 1440 RPM Spin Motor facilitates better and faster drying.

In Built Water Heater with a one of its kind steel drum \* delivers 60 degree C Hot wash for better wash and greater hygiene.

The digital interface shows the remaining program duration and makes it easy to use the machine's features. In case of power interruption, the machine seamlessly resumes operations from where it stopped.

100% polypropylene body makes the machine rust proof. Toughened Glass lids add to aesthetics and also make the machine durable and long lasting.
