HIKIDO

WARDROBE SYSTEMS

The secret behind soft sliding wardrobe.

So, you have decided to get a sliding wardrobe.
Wise choice.

You have seen these elegant and very convenient wardrobes that blend perfectly with the desired design vibe of the bedroom decor. Aesthetics is very important but behind that visual appeal it is critical to have an efficient system that consistently delivers smooth performance.

But what is the core product that drives this smooth movement of the wardrobe doors?

How do you choose the right sliding system?

You read reviews, research on your own, ask friends, and yet, are clueless what works.

So, we decided to create HIKIDO
A super soft and silent sliding wardrobe system.

Godrej HIKIDO the name is inspired by a Japanese word for sliding doors.

Godrej HIKIDO

- Consider the system as perpetually smooth.
- Carries weight regardless of glass or wood.
- It is noiseless and soft.
- Gives you many cycles of long-term usage.
- Pocket friendly installation cost.
- A perfect system to realise your creative vision for a wardrobe.

HIKIDO is your solution for a beautiful and high performance wardrobe.

INTRODUCING

HIKIDO

WARDROBE SYSTEMS

User Experience

Safety

Superior Aesthetics

Space Saving

Easy to Install

INLINE

Doors are in line (flushed) with each other over the carcass in closed position.

INSET

The fittings are designed in a way that the doors are completely inserted in the carcass. Doors overlap each other.

TOPPER

Overlapping doors are fitted in such a way that they are over the carcass and completely cover the frame of the wardrobe.

(Available only on pre-booking.)

CABINET

These fittings are for smaller and light weight doors. To be used for cabinets where only a single door is required.

Key features

Easy and quick installation with minimal number of components.

Concealed damper for smooth and soft closing.

The runner design, makes alignment of doors, servicing and maintenance very easy.

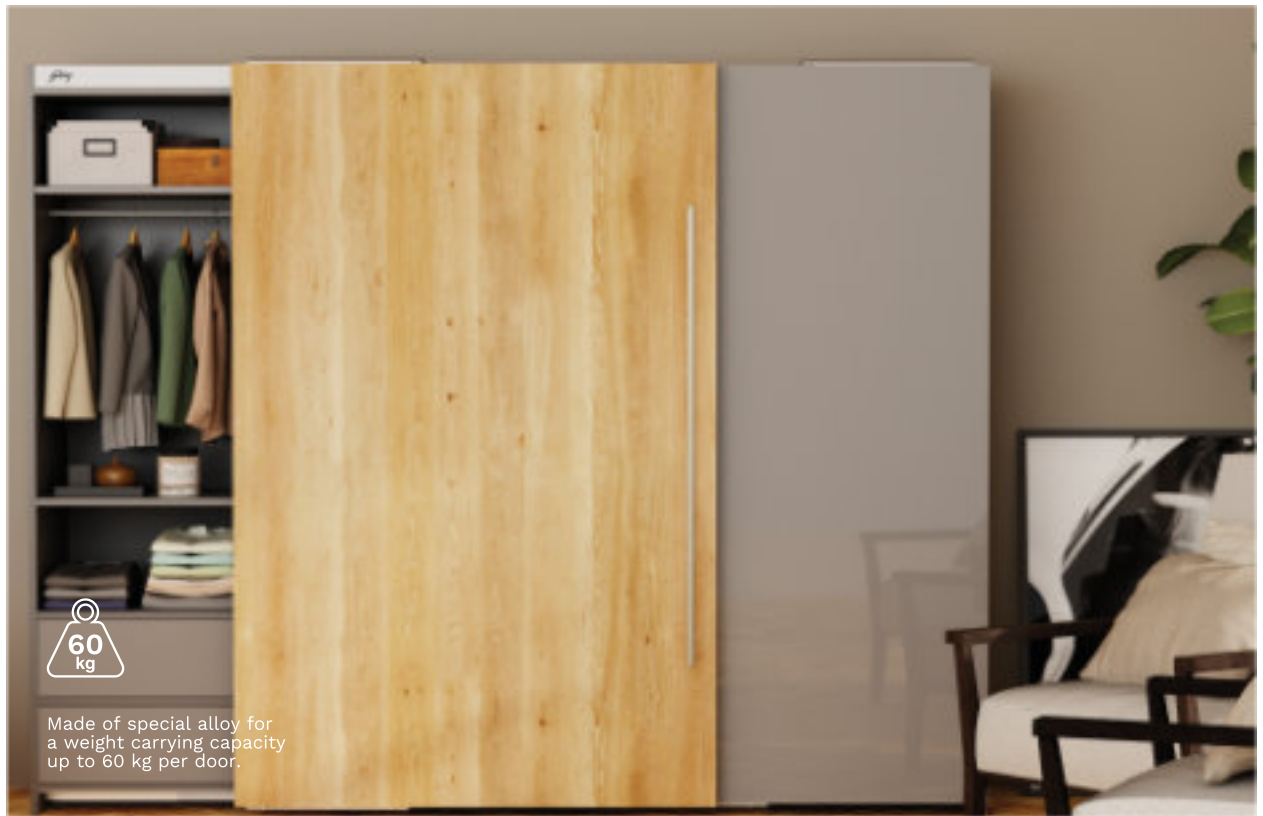

Silent performance with sturdy runners. Ensures superior user experience.

Provides complete access and maximise space utilisation.

INLINE

The high quality Hikido inline system accommodates wooden doors from 1.8 cm to 2.5 cm, with a maximum load-bearing capacity of 60Kg per door.
