**GODREJ PRESENTS
HOME DECOR HANDLES.**

GREAT HOME DECOR ALWAYS COMES FROM A GREAT DESIGN SENSIBILITY.

A great design sensibility always picks the right elements: the right architectural style, the right shade of paint, the right furniture style and pieces, the right decorative items, the right fabric for upholstery and curtains, the right rug, the right lights and the many more elements that together make up for beautiful home decor.

In the modern world, there many different design sensibilities or themes. Each theme is one perfect composition of all the elements mentioned earlier. There can be many themes and many home decor expressions, depending on one's individual taste.

Through research with 25 architects and interior designers, as well as nearly 100 home-owners, we at Godrej have identified four themes for modern home decor. These four themes are the aggregate themes that, we believe, offer the four most essential and contemporary expressions of home decor.

We are delighted to present to you these four themes.

From these themes come four different sets of handles. Each handle is designed to add immeasurably to a home's decor.
