**G**odrej Kitchen Systems has always pioneered advanced design solutions that add beauty as well as effortless functionality to your kitchen. Every product and component is carefully crafted, taking into consideration the unique requirements of the Indian kitchen and home maker.

Taking this tradition of intuitive design further, we now bring you the revolutionary SKIDO, an innovative range of drawers, organisers, corner solution, undersink solution, and grain storage. Creating space, increasing productivity, saving time and energy, this is our latest offering. Finally, Indian kitchens have an elegant as well as efficient answer for their storage needs.

# Think Indian. Think Innovation.

Indian cooking is elaborate and needs a diverse array of pans, kadhais, tavas, masala boxes, plates, thalis and various other utensils. None of these can be accommodated by foreign-made baskets and accessories.

A good-looking kitchen is a delight but what's more important is an easy-to-use kitchen. So, at Godrej, we undertook extensive research to study Indian kitchens and the different styles of cooking and storage needs.

The resultant deep insights helped us to create the SKIDO range of innovative kitchen storage solutions that make the lives of Indian homemakers easier and better.

# What is **available** in the market ?

Kitchen baskets designed for western cooking needs.

## Stainless Steel Wire Drawers

SKIDO brings design intelligence to kitchen baskets. Inspired by our patented design and bolstered by special stainless steel plus (SS<sup>+</sup>) material strength, our SKIDO drawers are a storage innovation that delivers strength, durability and flexibility to your kitchen.

## Slim Ergo

Godrej presents an evolved range of Slim Ergo. This range of organisers is a storage innovation to make life easier. Slim Ergo drawer channels are designed to offer you the flexibility of different sizes. Once you have purchased the board and laminate of your choice. This range of (drawer system) channels will assist you to build perfect size drawers based on your needs.

Note: We have designed these channels to provide optimum size variations. The wooden (board) drawer is not a part of the offering.

38 x 50.6 x 10cm | 4221  
43 x 50.6 x 10cm | 4223  
48 x 50.6 x 10cm | 4224  
53 x 50.6 x 10cm | 4225

38 x 50.6 x 15cm | 4226  
43 x 50.6 x 15cm | 4227  
48 x 50.6 x 15cm | 4228  
53 x 50.6 x 15cm | 4238

38 x 50.6 x 20cm | 4239  
43 x 50.6 x 20cm | 4240  
48 x 50.6 x 20cm | 4265  
53 x 50.6 x 20cm | 4266

Each drawer is available in three heights - 10cm, 15cm and 20cm and four widths - 38cm, 43cm, 48cm and 53cm. These help bring perfection to your kitchen storage.

slide mount.

# SKIDO

## Smart Kitchen Drawers & Organisers

MAX STORAGE • MAX CONVENIENCE

Whether it is a wire basket  
or Slim Ergo drawers,  
SKIDO organisers are a  
smart choice for an  
Indian kitchen.

*Now let's see how  
SKIDO upgrades the  
kitchen experience...*

## **Cutlery Organiser**

**Intelligent**

### Problem

In the baskets currently available, a lot of kitchen cutlery isn't easily accessible to the user. This leads to clutter and confusion. For example, when you need a spatula, you find it buried under other cutlery! Odd-shaped serving spoons are difficult to extract. Also, lack of flexible partitions create rigid spaces which are restrictive and difficult to access.

## Cutlery Organiser

### Solution

With the SKIDO Cutlery Organiser, things are different. Now all the cutlery is visible, neatly placed and easily accessible. Its adjustable partitions offer you the ability to customise according to your needs. Your belans, chimtas, kadchis, zaras and spoons can be easily stored, putting an end to cutlery clutter. Easy to remove and clean, the Cutlery Organiser helps you to neatly arrange odd-sized cutlery.

Possible layouts for Cutlery Organiser

The SKIDO Cutlery Organisers come in 2 widths: 38cm and 43cm. An additional 10cm tray helps to maximise space when used in the 48cm drawers. The cutlery organiser consists of 1 base tray and 4 cutlery partitions.

10cm  
Tray | 4269

38cm  
Drawer | 4267

43cm

53cm Drawer

## Universal Cutlery Organiser

*More space means more  
cups and saucers.*

## **Cup and Saucer Organiser**

**Store  
more.**

## Cup and Saucer Organiser

### Solution

The SKIDO Cup and Saucer Organiser is a simple but efficient solution. It comes with an easy-to-carry tray that aids in efficient space utilisation by placing all the cups, saucers, and mugs in a neat manner. Fixing the problems of oddly-shaped cups, the Cup and Saucer Organiser is a much-needed design innovation. The additional easy-to-carry tray utilises the vertical storage space, doubling the cup storage capacity.

### Problem

Every household has more cups, saucers and mugs than a conventional cup and saucer drawer can hold. There are no demarcated spaces to accommodate mugs and cups of different shapes and sizes. This causes a lot of storage space to be wasted.

The additional easy-to-carry tray utilises the vertical storage space, doubling the cup storage capacity.

The Cup & Saucer Organiser consists of 1 wire frame, 1 easy carry tray and 2 locators. This set is suitable for 38cm, 43cm, 48cm and 53cm drawer sizes.

## Universal Cup and Saucer Organiser

The Cup & Saucer Organiser consists of one wire frame, one easy carry tray and two clamps.

Code | 3151

*All my thalis,  
firmly in place.*

## **Thali Organiser**

Storing  
thalis,  
done  
right.

## Thali Organiser

### Solution

The SKIDO Thali Organiser brings neatness to the thali storage. It comes with a tab-like component (thali separator) that press-fits into the wire drawer. The thali separator can slide on the wire guides and can stop thalis from rolling and rattling. Additionally, it has space for serving glasses which are mostly used in tandem with thalis.

### Problem

Thalis come in various sizes which make optimum space utilisation difficult. It is a major hassle to take out those smaller thalis amongst the bigger ones. Also, the thalis cause an irritating rattling noise.

Wasted space.

Currently thalis and plates are stored this way, leaving space unutilised.

SKIDO Thali Organiser stores thalis efficiently and ensures more space utility.

Thali Organiser consists of 1 wire frame, 6 adjustable thali separators and 4 locators. This set is available in two sizes **15** for 38cm & 43cm drawers and **19** for 48cm & 53cm drawers.

38cm

*Now that's what I  
call innovation.*

## **Fry Pan Organiser**

**Easy  
to  
use.**

## Fry Pan Organiser

### Problem

The fry pan is the most problematic of kitchenware. In most households, pans are stacked one on top of the other, which means each time you take out a certain pan, a lot of scratching and rattling happens. This can damage the pan and its annoying to the ear.

### Solution

An innovative solution designed with smart thinking, the SKIDO Fry Pan Organiser is a uniquely-designed component that holds the pans in place by their handles. The SKIDO fry pan organiser clamps the pan-handles in its flexible soft touch holder while storing them in the drawer. This helps in the efficient use of storage space, allows easy access, prevents entangling of pan handles and also keeps the pans from getting damaged.

The SKIDO Fry Pan Organizer clamps the pan-handles in its flexible soft touch holder while storing them in the drawer.

Fry Pan Organizer consists of 1 frame, 1 soft touch holder and 2 locators. This set is available in two sizes **15** for 38cm & 43cm drawers and **19** for 48cm & 53cm drawers.

*No sliding.  
No clanking.*

## **Kadhai / Wok Organiser**

Storing  
Kadhai  
made  
easy.

## Kadhai / Wok Organiser

### Solution

The Kadhai Organiser helps in efficient space utilisation and is suitable for all wok sizes. It helps you to access your kadhais easily and also minimises the rattling noise.

The SKIDO Kadhai / Wok Organiser assists in vertical placement of the kadhais. A unique and innovative solution.

### Problem

Often stacked in the bottom drawer, kadhais (woks) are placed one over the other, making it difficult to access the one required. Due to its big size, kadhais occupy a lot of space and can be cumbersome to take out.

Kadhai / Wok  
Organiser

The SKIDO Kadhai / Wok Organiser uses only half the space in the drawer and offer easy accessibility.

Kadhai / Wok Organiser is suitable for 38cm, 43cm, 48cm and 53cm drawer sizes.

Kadhai / Wok Organiser

Code | 3159

*The convenient way  
to organised cooking.*

## **Container Organiser**

Smart  
storage.

## Container Organiser

### Solution

The SKIDO Container Organiser is a kitchen novelty. It comes with smartly designed flaps that easily snap onto the wire component. You can also segregate the containers by sizes which lets you pick what you need quickly and easily. Your tin and steel containers will no longer be an eyesore. With the Container Organiser and sliding partitions, you get the flexibility to choose an arrangement that works for you. The partition guide can be set up in different positions as well.

### Problem

Storing containers is a big issue because they come in unwieldy, shapes and sizes. Lack of convenient and flexible space dividers inside the drawer leads to clutter and space wastage. Finding those tiny chutney containers or dabbas becomes a hassle.

Possible Container Organiser layouts:

Container Organiser consists of 2 wire partition guides, 4 adjustable partitions and 2 side mounts. This set is available for 38cm, 43cm, 48cm and 53cm drawer sizes.

38cm  
Drawer | 4280

43cm  
Drawer | 4281

48cm  
Drawer | 4285

53cm  
Drawer | 4286

# Universal Container Organiser

Container Organiser consists of two dividers, four divider caps and four adjustable partitions. The dividers are available in 70cm, which can be cut to desired size.

Code | 3160

*Store dals, masalas,  
snacks, biscuits and  
more with ease.*

## Jars and Bottles Organiser

Pick  
what  
you  
need.

## Jars and Bottles Organiser

### Solution

SKIDO offers a clever solution by creating a mezzanine level. A solution to de-clutter: the SKIDO Jars and Bottles Organiser lets you easily arrange a wide variety of masala bottles, oil jars, flat short containers, tiffin boxes, ready to eat food packets, etc with three trays that bring order and neatness. Its specialty is the smart utilisation of vertical space in the drawer. The easy-to-carry tray can be used to take masalas to the cooking area in the kitchen.

### Problem

Masala containers, jars, boxes, etc. are kept together in the same basket. Small, short, and flat containers are spread over multiple baskets resulting in poor utilisation of space. There is also no easy way to use the vertical storage space in the drawer.

The 'easy-to-carry' tray can be used to take masalas to the preparation area.

The SKIDO Jars and Bottles Organisers come in 4 widths: 38cm, 43cm, 48cm and 53cm.

38cm  
Drawer | 4271

## **SKIDO SUPER SOLUTIONS FOR EASY OPERATION BY GODREJ.**

Continuous research to gain insights into Indian kitchen habits led us to design the Super Slideout Pantry and Super Corner Solution.

This range further establishes Godrej's commitment to design products that make the lives of users better.

# Super Cool Skido Range

The smart kitchen storage system from Godrej.  
We bring you more ideas as a part of the SKIDO range.

- **Super Slideout Pantry**
- **Super Corner Solution**
- **Super Swing Solution**

## **Super Slideout Pantry**

Made of strong powder coated frame and high grade plastic trays, 'Super Slideout Pantry' is a concept that has never been seen in an Indian Kitchen. With just a slight push, the top and bottom trays slide-out, giving the user easy access and visibility.

## **Super Corner Solution**

Divided into three units - middle, right and left. Super Corner Solution offers flexibility for organization of L-type corner space as per your need. You can fix the middle unit with two slideout drawers and door mounted trays.

You could also have both the left and right hand side unit. The complete system offers you ample storage in a space that otherwise goes to waste.

## **Super Swing Solution**

Another clever concept for utilizing straight corner space. High grade plastic trays swing out as you open the door and snugly fit back into the corner. Easy to use and super easy to access.

*Thumbs Up to the  
concept, engineering  
and design.*

*New, Skido Super Solutions  
are here. Now save space  
and store more.*

## **Super Slideout Pantry**

Smooth  
Operation.

Smartly calculated drawer heights help to store contents according to their size. This ensures efficient use of space and convenient organization.

Provides lasting appeal and durability. Drawers have smooth edges which are easy to wipe/clean.

Another big convenience! The flat base keeps bottles, jars and other contents stable. No hassle of things getting stuck between the wires as in the case of traditional baskets. Intuitive handles are also present to push or pull the tray easily.

## Super Slideout Pantry

### Problem

Pullouts are generally used to make use of vertical space that appears between drawers. While cooking, pullouts are used frequently to access oil, masalas etc. This becomes a tedious task as the available pullouts with three shelves are rigid, as a result it hampers visibility and accessibility.

### Solution

The most unique and user-friendly solution from SKIDO. The **Super Slideout Pantry**, made of strong powder coated frame and high-grade plastic trays, the **Super Slideout Pantry** is what you need! With just a gentle push, the top and bottom drawers slideout sideways giving you full visibility of the contents and easy access to things. Pick what you need and continue to cook with ease. **Super Slideout Pantry** is here to assist you.

Minimum Space Requirement

**Super Slideout Pantry**  
Product Code | 5521

## Conventional Pullout

Traditionally, baskets come with equal heights that leads to **inefficient use of space**. Items of all shapes and sizes then lead to clutter.

Equal Basket height wastes space.

## Super Slideout Pantry

Thoughtfully designed & calculated heights of baskets help to **organize the items efficiently**.

Smart drawer heights provide maximum space utility.

Payload Capacity 5 kg

Payload Capacity 10 kg

Payload Capacity 20 kg

**Efficient Space Utilisation**  
Smart drawer spacing utilizes the vertical space available, efficiently.

**Maximum Space Utilization**  
Varied drawer heights helps to organize the items conveniently according to their heights for efficient space utilization.

**Better Visibility**  
The Super slideout pantry has a cascading display that gives the user complete visibility of the items stored.

**Ease of Access**  
The step-like arrangement of the mechanism makes it easier to find & access required items.

The whole unit can be rotated to suit Left Hand or Right Hand side usage. The symmetrical construction makes it easy for either LHS or RHS usage.

*I am so happy I can use the corner space so effectively.*

## **Super Corner Solution**

**Smart use of space.**

3 modular units with unique arrangement to maximize corner space utility.

Sturdy powder coated frame, high grade injection molded plastic & special stainless steel for lasting appeal & durability.

Pre-assembled units easy to install for the carpenters.

## Super Corner Solution

**NAYI SOCH**  
नई सोच

Unique design  
uses every inch  
of corner space.

### Problem

The corner space in the kitchen usually gets wasted as it is deep and dark below the counter top. Existing solutions do not resolve this problem. Most of the people store unwanted and seldom used things in this space leading to clutter. This becomes a perfect hideout for pests and insects.

### Solution

An innovative and convenient solution from SKIDO range. **Super Corner Solution** is just what you need. The corner space that is generally wasted can now be used for more storage. This solution is available in three modular units **Middle Unit** and **LHS, RHS**. The SS wire drawers slide out with ease. Door mounted high grade plastic trays offer more storage. Customize with LHS or RHS to create extra space. All units are available separately.

**L-Type Corner Space**  
Sink away from corner

**Minimum Space Requirement**

## Middle Unit with Trays

Pre-assembled unit with robust construction is easy to install for the carpenters. The frame is designed for high stability. Sturdy powder-coated frame and superior stainless steel drawers for a long life.

Door-mounted high grade plastic tray units give you quick access to small items (e.g. mittens, napkins, etc). As you open the door, the trays are fully visible. You can easily remove these trays for cleaning and place them back with ease.

*"Thoughtful and well designed. This is a 'must have' for all Indian Kitchens."*

## **Super Swing Corner**

**Ingenious  
Solution.**

2 uniquely shaped drawers to maximize the kitchen corner space utility.

Height adjustable units enable you to organise items according to their size and purpose.

Robust construction and smooth swing out mechanism has been designed for a pleasant user experience.

# Super Swing Corner

## Solution

SKIDO introduces **Super Swing Solution**. Now you don't have to worry about wasting the precious storage space. This design uses every inch of space very cleverly. On top of that you get the ease of access and visibility. The door mounted trays made of high grade plastic, swing out as you open and move back in place as you close them. Totally hassle free to use, super swing solution is an absolute kitchen essential.

## Problem

Utilizing corner space in the kitchen is a challenge. The rigid shelves available in the market do not serve this purpose. This space usually becomes a cluttered storage area where you can never find what you are looking for.

**Straight Corner Space**  
Sink next to corner

## Construction of Inner and Outer Unit

Pre-assembled unit with robust construction is easy to install for carpenters. Inbuilt template is provided for easy alignments. The robust construction of the unit and smooth mechanism is designed for a pleasant user experience.

Door mounted outer trays made of high grade injection molded plastic.

Separately operable inner trays.

Payload capacity is 12 kg per tray. Items that can be stored are surplus groceries.

Payload capacity is 15 kg per tray. Items that can be stored are large utensils and small appliances.

*Super Undersink Solution gives me so much more storage space which was totally unused.*

## **Super Undersink Solution**

**Zero waste of space.**

Three products to choose from. Tray, Cleaning Supply and Trash Bins.

Sturdy metal frame to support the Cleaning Supply, Tray and Trash Bins.

Easy to install and Super convenient to use.

Tray Unit

Cleaning Supply Unit

Trash Bin Unit

# Super Undersink Solution

## Problem

In most kitchens in India, the area under the kitchen sink is completely wasted. This space is used for dumping all kinds of unwanted things which leads to a clutter and becomes a home for pests and insects. Keeping this area clean also becomes a challenge. The existing products do not solve the issue of different piping layouts.

## Solution

SKIDO brings you an amazing solution to overcome under sink storage problem. You have an option of a high grade plastic tray, a stainless steel cleaning supply unit and trash bins (Auto close and open). A strong metal frame mounted with sliders helps you to use all three. You can customise them as per your need and the sink pipe layout. You can purchase two bins and one basket or one tray, or two trays and four bins. You will certainly find a satisfactory combination that suits you.

Space allocation (Organization)

Ease of access

Customizable

Easy Installation

Touch free trash bin lid

Ergonomic Design

### Super Undersink Solution (Tray Unit)

Product Code | 5526

### Super Undersink Solution (Cleaning Supply Unit)

Product Code | 5527

### Super Undersink Solution (Trash Bin Unit)

Product Code | 5528

# Super Undersink Solution

The Super Undersink Solution consists of 3 modular units. You can make your own solution according to the space and pipe layout that is available under the kitchen sink.

**Rear Pipe Arrangement**

**Right Pipe Arrangement**

**Corrugated Pipe Arrangement**

**Left Pipe Arrangement**

The Super Undersink Solution is designed for fascia or doors as per your kitchen design. It's carefully designed base support frame and metal bracket gives rigidity and stability to the structure. High Grade injection-moulded plastic tray can store all small items like soaps, scrubs, small jars and dabbas. The stainless steel cleaning supply unit can store big bottles and packets like detergents, liquid soaps, phenyl, etc. Auto opening trash bin offers you a great convenience as you don't need to touch the bin everytime you need to use it.

*"Thoughtful and well designed. This will make grain storage so convenient."*

## **Perfect Grain Storage**

Grains  
safe from  
pests.

Well distributed  
space allocation.

Super easy to slide  
in and out with  
easy access and a  
smart grip handle  
to lift the bin.

No strain,  
Ergonomic  
design that is  
easy to install.

### Problem

Indian households generally stock pile upto 10 to 20 kg of grains. Large containers are used to store rice, dals, atta, etc. Usually these are placed in the lower section of the kitchen this placement makes it inaccessible and difficult to use.

## Perfect Grain Storage

### Solution

Godrej adds a perfect solution to the SKIDO range. These ergonomically designed storage bins give easy access and more importantly, they are easy to install.

# Perfect Grain Storage

Perfect grain storage can store a week's ration for a family of four. No hassle to takeout grains from heavy containers daily. Due to it's ergonomic design, it is not a strain to pick up the container. The special stainless-steel frames are designed to hold the storage containers. The steel structure makes it durable and adds a shine. Smooth sliding mechanism and segregation of different grains makes this product essential for all kitchens.

Grain storage is usually placed away from the sink area.

Containers are made from high grade plastic with a sturdy handle to easily lift it or to carry it to a chakki.

This high-grade moulded plastic container is designed for durability. These containers not only look good, but they are portable too. Just pick it up to take out a portion or carry it to the Chakki. The airtight lid is designed to keep the moisture out and keep the contents fresh. Aesthetics, organisation and ergonomics are hallmarks of the SKIDO Perfect Grain Storage.

## Keep it fresh

Airtight lid with foodgrade silicon gasket to keep contents safe from moisture and contamination.

The stainless steel basket for this solution is designed to be aesthetically pleasing. The strong structure helps to store a lot of items. The basket is also known as 'Cleaning Supply Unit'.

Get ready to  
experience  
the SKIDO  
magic !

*"Indian Kitchens  
will never be the  
same again."*
